Subject: Utilization of the services of subordinate engineering staff in Programme Production/ News Production/Camera Unit

Respected Sir,

With due respect, our Association welcomes the steps taken to utilize the services of subordinate engineering staff in Administration, as well as in Archives , IT Cell & C.B.S.

On behalf of our Association we want to suggest in order to save money & better utilization of the services of existing regular staff.

As you are aware that many posts are vacant in programme wings, news wings and camera section, so therefore Doordarshan and All India Radio is hiring services of retired employees on contractual basis.

In the present scenario after closure of Doordarshan LPTV, subordinate engineering staff such as Tech./Sr. Tech./EA/SEA/AEs services may be utilized in programme production/ Transmission, News production and as camera man.

The subordinate engineering staff are having very long services in the organization and may meet the required skill easily. They are also having equivalent bachelor degree. (Diploma in Engineering are treated as equivalent to B.Sc degree).

Now-a-day many more subordinate engineering staff are having B.Tech. degree. Hence in view of saving money and better utilization of the services of the existing staff, this association is of the view that the above suggestion may please be adopted.

Thanking you Sir

Sincerely yours
SVS 26/11/18
